Air Quality Forecast for the UK

Issued by the Met Office

Today: Most of the UK will see Low levels of air pollution during Thursday. However, there continues to be a risk of areas of Moderate pollution around coastal parts of northern and western Scotland and over the Northern Isles. There may also be some locally elevated pollution levels in urban areas across southeast England.

Tomorrow: For much of the UK air pollution levels will be Low. Coastal parts of northern and western Scotland will see occasionally Moderate levels.

Outlook: With increasingly unsettled weather, much of the UK will see Low levels of air pollution. Despite this there remains a risk of Moderate air pollution in northwestern Scotland.
